

## What: The Culture of Death

### Eugenics:

- A. Eugenics defined: Excluding people and groups judged to be inferior or promoting those judged to be superior. "Survival of the fittest" has been proactively practiced since ancient times.
- B. In one of Plato's (died 348 BC) best-known literary works, *The Republic*, he wrote about creating a superior society by procreating high-class people together and discouraging coupling between the lower classes. He also suggested a variety of mating rules to help create an optimal society.
- C. U.S. is the leader in the current thought process, adopted by the Germans

Conclusion: Eugenics ideas are part of our sin nature.

### Operation Paperclip:

- A. Narrative: Eugenics is renounced by U.S. when Adolf Hitler adopted this philosophy
- B. What is the truth?

Conclusion: The U.S. continues to be the eugenics leader of today.

### Banality of Evil:

Conclusion: The slippery slope of evil has taken hold of our culture.

### Medical murder of the disabled and elderly – recent history:

- A. Ezekiel Emanuel, one of the country's most influential bioethicists and a prime architect of Obamacare, wrote as far back as 1996 that health care "services provided to individuals who are irreversibly prevented from being or becoming participating citizens are not basic and should not be guaranteed."
- B. The Affordable Care Act (ACA), a/k/a Obamacare, was signed into law on March 23, 2010. Obamacare laid the groundwork for the current degradation of healthcare set in motion over 100 years ago by the Rockefellers.

- C. COVID exposed the reality of medical murder – the disabled and the elderly

### Disabled targets

Even the liberal perspective states that disabled were 6X more likely to die:

Conclusion: The disabled and the elderly are the low hanging fruit of the eugenics mindset the culture has adopted. Hastening death is murder.

Eugenics doesn't just apply to the disabled and the elderly - applies to the larger population because of the real agenda:

- A. Medical murder (the lane I'm in) is only one tentacle of the depopulation agenda – wars, famine, food shortages, China threats, climate manipulation, poisoning (food and water), controlling the power grid, buying and selling with fake money, 5G, phone radiation, fluoride in water, mercury fillings, organ harvesting, child sacrifice, child trafficking, open borders, trans movement; CBDC – a convergence that is all part of the ultimate control grid

- B. Plans to depopulation the U.S. were formalized in 1967 - Berelson and Jaffe would work together on the 1972 Rockefeller Commission Report. Many of the ideas discussed in the memorandum were incorporated into the Rockefeller Report.

Conclusion: You’re next!

No consequences for murder:

- A. The evil side isn’t hiding anymore – Motion to dismiss example from Grace’s lawsuit  
 Think about this statement of motive – ‘we need to limit liability for doctors, or they won’t come to our State’ is the basis for a law which ends up targeting the citizens impacted by medical malfeasance. Do good doctors need liability protection? This game has been implemented by the “health care” lobby to facilitate the culture of death.
- B. How has The National Childhood Vaccine Injury Act of 1986, eliminating liability for vaccine manufacturers, worked out? Ask someone with autism if you are wondering.
- C. How about someone who died suddenly of the newly invented Sudden Adult Death Syndrome, as the result of taking the “vaccine” that was going to be our savior?

Conclusion: God’s economy has consequences for choices. When the consequences are removed, by law, the effects are catastrophic.
