Anthem Blue Cross and Blue Shield Medicaid

## COVID-19 Vaccine Provider Incentive program

Getting vaccinated against COVID-19 is one of the best and safest ways people can protect themselves and their families against the virus. As a participating practice in the COVID-19 Provider Vaccine Incentive program, we recognize your hard work by offering incentives for helping patients make the choice to become vaccinated.

### Eligibility

The COVID-19 Vaccine Provider Incentive program is open to you if you are a participating Kentucky primary care provider with an Anthem Blue Cross and Blue Shield Medicaid (Anthem) panel size of 25 or more members. All Anthem members identified as receiving COVID-19 vaccination services are included in the methodology. Vaccine results will be determined by a COVID-19 vaccine claim or by confirmation from the Kentucky Vaccine Registry.

The results will be calculated for two time periods:

- September 1, 2021 – Initial incentive payment
- December 31, 2021 – Final incentive payment

### How you can qualify for a bonus

If your practice meets the below thresholds for vaccination with at least one dose by September 1, 2021, you will receive the initial incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$20 bonus per vaccinated member
- 40% Anthem members vaccinated – \$45 bonus per vaccinated member
- 50% Anthem members vaccinated – \$70 bonus per vaccinated member
- 60% Anthem members vaccinated – \$100 bonus per vaccinated member
- 75% Anthem members vaccinated – \$125 bonus per vaccinated member

The final incentive payment is calculated based on members who are newly vaccinated between September 1, 2021 and December 31, 2021 (see the *Appendix* for calculation examples). If your practice meets the below thresholds for vaccination with at least one dose by December 1, 2021, you will receive the final incentive payment based on the following rates:

- 30% Anthem members vaccinated – \$100 bonus per newly vaccinated member
- 40% Anthem members vaccinated – \$150 bonus per newly vaccinated member
- 50% Anthem members vaccinated – \$175 bonus per newly vaccinated member
- 60% Anthem members vaccinated – \$200 bonus per newly vaccinated member
- 75% Anthem members vaccinated – \$250 bonus per newly vaccinated member

- Think this through: Medicare/Medicaid is the ultimate bait and switch – we payroll deduct so we have “free health care” when we retire; remember, we paid for this ‘privilege’ our entire working life, but it is wrapped up in bow looking like our government is taking care of the elderly and the disabled. Then, they program us to bow down to the doctor and they license the doctor, so he won't be paid unless he follows CMS Standards of Care designed to hasten our deaths.
- CMS says 135M on program: <https://www.cms.gov/newsroom/news-alert/cms-releases-latest-enrollment-figures-medicare-medicaid-and-childrens-health-insurance-program-chip>
- Over 50% of the annual federal budget is related to these bureaucracy!

State legislators enact State Statute 448.30 - lack of Informed Consent is the cause of medical murder; note there are no consequences for not providing informed consent in the statute. The “enforcement” is by the Medical Examining Board, which is 13 members, 10 of which are physicians!

The screenshot shows a web browser window with the URL `docs.legis.wisconsin.gov/statutes/statutes/448/ii/30`. The page header features the Wisconsin State Legislature logo and a search bar. Below the header, there is a navigation menu with links to HOME, SENATE, ASSEMBLY, COMMITTEES, and SERVICE AGENCIES. The main content area displays the text of Statute 448.30, which is highlighted in yellow. The statute defines the standard for informed consent and lists seven exceptions to the disclosure requirement.

448.30 **Informed consent.** Any physician who treats a patient shall inform the patient about the availability of reasonable alternate medical modes of treatment and about the benefits and risks of these treatments. The reasonable physician standard is the standard for informing a patient under this section. The reasonable physician standard requires disclosure only of information that a reasonable physician in the same or a similar medical specialty would know and disclose under the circumstances. The physician's duty to inform the patient under this section does not require disclosure of:

- (2) Detailed technical information that in all probability a patient would not understand.
- (3) Risks apparent or known to the patient.
- (4) Extremely remote possibilities that might falsely or detrimentally alarm the patient.
- (5) Information in emergencies where failure to provide treatment would be more harmful to the patient than treatment.
- (6) Information in cases where the patient is incapable of consenting.
- (7) Information about alternate medical modes of treatment for any condition the physician has not included in his or her diagnosis at the time the physician informs the patient.

Dear Mr. :

As you are aware, the Medical Examining Board Screening Panel (Panel), staffed by Department legal counsel, re-reviewed the allegations set forth in the complaint filed by Mr. Schara. The re-review was completed on October 4, 2022.

After careful consideration, the Panel reaffirmed their decision to close the complaint without further action.

Among the allegations that the Panel reconsidered and thoroughly discussed was the allegation that the attending physician violated Wis. Stat. § 154.19. The purpose of a written DNR as outlined in chapter 154 of the Wisconsin Statutes, Advance Directives, is to direct care provided in emergency department and out-of-hospital emergency settings so that the medical care provided in those settings is consistent with a patient's wishes and an attending physician's authorization. They are sometimes referred to as "community" DNRs, which is reflective of their purposes.

Chapter 154 of the Wisconsin Statutes does not apply to physicians operating in a hospital, non-emergency room setting such as the one in question. The exercise of judgment by a physician working in a non-emergency hospital setting is informed by many variables, including but not limited to patient prognosis, expected medical benefit of the considered care, and patient and family wishes expressed contemporaneously through a living will, or through a health care power of attorney agent empowered to make decisions on behalf of a patient.

While the decision of the Panel does not likely provide any comfort to the grieving family, the allegations were thoroughly considered on multiple occasions by members of the Medical Examining Board and the Department. Again, the Medical Examining Board and Department offer our condolences to the family.

**Conclusion: Legislation has become another satanic dialectic to trick us to thinking we can use man's ways to fix things. We cannot contract morality. We have a God problem, not a legal problem. Article 1 section 12 of our State constitution says no ex post facto law can be passed. No statute can be made over the contract the legislators swore to abide by. So, the legislature cannot write a law allowing immunity for doctors from harming the people or taking the rights of the people out of their hands by writing procedures or immunities to protect the medical community from being held accountable.**

## Churches and Religious Non-Profits Received \$6-10 Billion In COVID Relief Funds

Well-known evangelical groups receive funds – including Ligonier Ministries, Willow Creek, Harvest Bible Chapel, and David C. Cook

Wesley C. Smith • June 7, 2020

Religious organizations, including churches and Christian non-profits, received at least \$6-billion in COVID relief funds. The funds were a part of the Paycheck Protection Program run by the Small Business Administration, according to a list released by the SBA this week.

Some well-known names are on that list, including Willow Creek Community Church, Reformed University Fellowship, Mission Aviation Fellowship, prominent evangelical publisher David C. Cook, and Joyce Meyer Ministries. (A more complete list is below)

In order to receive PPP funds, an applicant must affirm: "Current economic uncertainty makes this loan request necessary to support the ongoing operations of the Applicant."

Data released by the Small Business Administration this week were divided into two categories: those who received

**Conclusion: Separation of church and state, along with Christian seminary funding by the Rockefellers has changed the landscape in recognizing and fighting spiritual warfare.
